

Sensei Shines at Bauma Munich 2025!

As one of the leading global events in the construction machinery sector, Bauma Munich 2025 provided the perfect platform for us to showcase our original-quality Sensei aftermarket spare parts, compatible with Yanmar Diesel engines.

Throughout the event, both our main booth and promotion point was filled with industry professionals, partners, and enthusiasts eager to learn about and explore Sensei products. We had the pleasure of engaging in insightful discussions, forging valuable partnerships, and strengthening our presence in the global construction equipment market.

A huge thank you to everyone who visited us and made this event unforgettable. Can't wait to see you next time!

Next Stop: CTT Expo Russia

Following our successful participation at Bauma Munich 2025, our dedicated team is now preparing to showcase our extensive range of high-quality engine spare parts at CTT Expo 2025 in Moscow — the premier trade fair for construction equipment and technologies across Russia and Eastern Europe.

Taking place from May 27-30, this prestigious event offers us the opportunity to connect with industry leaders, partners, and visitors, having discussions about new opportunities. We look forward to connecting with you there and continuing to drive success in the global market!
