

Manufactured to Sensei Quality: Sensei Common Rail

Say hello to the Sensei Common Rail injectors and test benches we launched last month at Automechanika Istanbul! Compatible with Bosch, CAT, Perkins, Delphi, Denso, and Siemens systems, every Sensei Common Rail injector is carefully packaged and delivered with usage instructions, quality control test reports, and protective components.

Our STB-366 and STB-118 model test benches which performed live tests of these injectors throughout the fair received top marks from both visitors and industry professionals alike. With exports to more than 90 countries and an extensive dealer network offering same-day delivery, your production process won't skip a beat.

Automechanika Frankfurt

We are proud to be part of Automechanika Frankfurt, the world's largest forum for the automotive aftermarket industry, hosting 4,200 companies from 80 countries and 108,000 visitors from 172 countries, joining this global platform as Sensei Spare Parts.

Bauma China

We are taking our place among industry leaders at bauma Shanghai, Asia's largest construction fair, bringing together more than 3,500 companies from 32 countries and approximately 280,000 visitors from 188 countries, representing Sensei Spare Parts with our Yanmar and Kubota spare parts solutions and Common Rail product range.
