

Sensei Stole the Spotlight at Hub of Warehouse

Sensei participated in the Hub of Warehouse (HOW) Fair, held at Istanbul Expo Center from September 18-20. Throughout the fair, our booth attracted significant attention from industry leaders, business partners, and visitors discovering Sensei for the first time. Attendees had the opportunity to explore our solutions, distinguished by special packaging and a wide range of offerings, and to experience Sensei quality firsthand.

We would like to thank everyone who visited our booth and supported us at HOW 2025. With each fair we attend, we grow stronger and continue to raise the standards of the industry!

Our Newest Range: Sensei Nozzles

This month, we are introducing a brand-new addition to our product range: **Sensei Nozzles**. Designed with precision and durability in mind, Sensei Nozzles deliver consistent performance and meet the high standards our customers expect from the Sensei brand.

We are ready to meet all your spare part needs with our extensive and readily available options specifically for Yanmar industrial and marine diesel engines!

Your Engine's New Advantage SEPTEMBER, 2021

SENSEI NOZZLES ARE NOW IN STOCK!

The nozzle is the core of a diesel engine's fuel injection system, atomizing fuel into a fine mist to ensure efficient combustion and consistent power. Sasse nozzles are precision engineered to deliver optimal spray patterns, fuel distribution, and atomization. With a broad range in stock for Yanmar industrial diesel engines—specifically suited for industrial machinery—we offer fast delivery and OEM quality at competitive pricing to keep your engine performing at their best.

The Sensei Nozzles in our stock are compatible with the following **YANMAR** industrial engine models:

TANMAR industrial engine models:
